ASAN MEDICAL CENTER
KOREA'S MOST ADMIRE HOSPITAL

Leader

We are setting the Global Standard for modern medicine

Established in 1989 by Asan Ju-Yung Chung (1915-2001), founder of the Hyundai Group and Asan Foundation, Asan Medical Center provides an optimal treatment system with cutting-edge medical equipment based on advanced medical practices. We serve an average population of 11,862 outpatients and 2,557 inpatients daily, performing 63,791 high-level operations per year. It is Korea’s largest and most advanced hospital with 27 Specialized Centers, 44 departments, and 2,704 beds. (Also located within the Asan Medical Center complex, the Asan Life Science Research Center and the Clinical Research Center are committed to the research and advancement of medicine for the health of humankind)

Asan Cancer Institute

- Personalized cancer treatment based on world-class clinical experience
- Multi-department integrated treatment system providing optimal treatment for patients
- High-level cancer operation experience: Ranked No. 1 in Korea for 9 out of 10 major cancer operations

Asan Heart Institute

- 98% Success rate in coronary intervention (1-year survival rate)
- World's first Left Main Coronary Artery Intervention
- Asia’s largest number (as a single hospital) of TAVR (Transcatheter aortic valve replacement) cases

Asan Organ Transplantation Center

- Holds world record for over 5,000 Liver Transplants and over 4,300 Living Donor Liver Transplantations
- Over 98% success rate (1-year survival rate) for liver and kidney, 95% for heart and pancreas transplants
- Responsible for over 60% of all heart and pancreas transplant procedures executed in Korea
HEALTH SCREENING & PROMOTION CENTER
YOUR LIFETIME HEALTH PARTNER

QUALITY Top ranked medical staff and cutting-edge equipment will not miss even the smallest possibility of early detection

We develop a personally tailored health-screening program to screen for potential health risk factors in order to prevent and early detect diseases and also to create a guideline for your health management. All tests and examinations are provided in a comfortable atmosphere with premium service, and we also operate a systematic connection process from health screening to disease treatment.
